

Einstein Jefferson Psychiatry Grand Rounds Series (July 2025-June 2026)

Addiction medicine, Neuro bio and integrative treatment tools- a quick primer!

This weekly presentation occurs from October to June and will provide education to MDs, psychologists, medical student, nurses, and other mental health providers.

The content covers a wide spectrum of topics designed to support the practicing psychiatrist and mental health provider. Topics include pharmacology, anatomy, physiology, communication, individual and group psychotherapy techniques, and system issues.

These presentations emphasize skills in working with diverse populations.

Objectives

- 1 Understand predisposing factors of substance use and addition
- 2 Use screening tools for SUD
- 3 Describe 3 treatment tools for AUD and 3 treatments for OUD
