

Einstein Jefferson Psychiatry Grand Rounds Series (July 2025-June 2026)

Integrative Psychiatry: Principles, Mechanisms, Clinical Applications, and Training Opportunities

This weekly presentation occurs from October to June and will provide education to MDs, psychologists, medical student, nurses, and other mental health providers.

The content covers a wide spectrum of topics designed to support the practicing psychiatrist and mental health provider. Topics include pharmacology, anatomy, physiology, communication, individual and group psychotherapy techniques, and system issues.

These presentations emphasize skills in working with diverse populations.

Objectives

- 1 * Summarize the core principles and foundational concepts of Integrative Psychiatry. * Summarize the core principles and foundational concepts of Integrative Psychiatry. * Discuss several evidence-based, non-pharmacologic treatment approaches for common psychiatric disorders. * Review and interpret evaluation results from the Integrative Psychiatry in Residency (IPR) training program, highlighting its impact and outcomes.
- 2 * Discuss several evidence-based, non-pharmacologic treatment approaches for common psychiatric disorders. * Review and interpret evaluation results from the Integrative Psychiatry in Residency (IPR) training program, highlighting its impact and outcomes.

In support of improving patient care, Thomas Jefferson University is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation

Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.
