

Einstein Jefferson Psychiatry Grand Rounds Series (July 2025-June 2026)

Beyond Amyloid: Updates in Alzheimer's Disease

This weekly presentation occurs from October to June and will provide education to MDs, psychologists, medical student, nurses, and other mental health providers.

The content covers a wide spectrum of topics designed to support the practicing psychiatrist and mental health provider. Topics include pharmacology, anatomy, physiology, communication, individual and group psychotherapy techniques, and system issues.

These presentations emphasize skills in working with diverse populations.

Objective(s): 1 Present the past and current understanding of the pathophysiology of Alzheimer's Disease (AD) 2 Understand the diagnostic differences in clinical and research frameworks of AD 3 Discuss the role of genetic testing, biomarkers and radiography in the diagnosis of AD 4 Appreciate the sex-based distinctions in AD and working theories 5 Review current treatments and future research directions. 6 Review current treatments and future research directions. 7 Review current treatments and future research directions.

Location: Online

Specialties: Psychiatry, Psychology, Addiction/Substance Abuse, Behavioral/Mental Health, Child and Adolescent

Faculty Disclosures:

Paulette R Cazares, MD, MPH (Grant or research support-Eisai, Inc. - 12/09/2025)
