### Company Description

GammaTile- Improving the Lives of Patients with Brain Tumors.

# Globus Medical

Representatives Christopher Leonetti cleonetti@globusmedical.com

Brian Randazzo BRandazzo@globusmedical.com

## Company Description

"Globus Medical is a leading musculoskeletal solutions company with the goal of improving the quality of life for patients with musculoskeletal disorders. We are inspired by the needs of these patients and by the surgeons and healthcare providers who treat them.

Globus Medical is driving significant technological advancements across a complete suite of products ranging from spinal, trauma, and joint reconstruction therapies to imaging, navigation, and robotics.

Founded in 2003, Globus' single-minded focus on advancing spine surgery has made it the fastest growing company in the history of orthopedics. Our philosophy is built on three fundamental principles: Providing Exceptional Response, Delivering Innovation, and Advancing Patient Care. Globus is driven to utilize high-level engineering and rapid technology iterations to achieve pain-free, active lives for all patients with musculoskeletal disorders.

At Globus we are in the business of problem solving. Seeing the unmet clinical need and finding a solution that keeps life moving forward. Creating solutions today, that impact patient's quality of life tomorrow. All while providing world class, leading technologies to help their surgeons get there. Life Moves Us and with innovative technology we will continue to move forward together."

**SABLE™**  
**3D Printed Expandable Posterior Lumbar Interbody Spacer**

The innovative SABLE™ Spacer is designed to enable sagittal correction without compromising a low starting height. Implant heights may be adjusted for each patient by expanding to fit their unique anatomy. SABLE™ also features 3D printed titanium endplates and post-expansion bone graft packing to help promote fusion.

Back-filling with bone graft

Hyperlordotic profiles up to 22°

3D printed endplates

6mm starting height and up to 8mm expansion

**EXPANDING POSSIBILITIES**

**EXPANDABLE TECHNOLOGY.**

[GlobusMedical.com/ExpandableTechnology](http://GlobusMedical.com/ExpandableTechnology)

SABLE™ is FDA-cleared and CE marked but not available in all geographic locations.

**GLOBUS MEDICAL**  
Life moves us

## Highridge Medical

Representatives   Jay Vereen      jaydvereen@gmail.com  
                                 Leslie Weitman      leslie.weitman@highridgemedical.com

### Company Description

Highridge Medical is dedicated to restoring daily life for patients through comprehensive spinal solutions with a focus on education, training, and clinical support for surgeons. Along with cervical disc replacement, vertebral body tethering, comprehensive spinal fixation, and fusion implants, Highridge offers minimally invasive procedural solutions and a complete suite of biologic solutions.

Rapid Medical, Inc.

Representatives Chris Murphy      [chris@rapid-medical.com](mailto:chris@rapid-medical.com)

### Company Description

Rapid Medical - Neurovascular technologies for optimized stroke procedures.

## Theragen

Representatives	Anthony Puglisi	<a href="mailto:anthony.puglisi@theragen.com">anthony.puglisi@theragen.com</a>
	Bryan Williams	<a href="mailto:bryan@revmedllc.com">bryan@revmedllc.com</a>

### Company Description

At Theragen, we strive to improve patient care and surgical fusion outcomes via non-invasive therapeutic electrical stimulation, advanced digital engagement, and exceptional customer service. Theragen launched ActaStim-S, the smallest, most digitally capable, and data-driven non-invasive bone growth stimulator. ActaStim-S assumed first-mover status by combining all-day wearability, proven capacitive coupling therapy, and automated daily clinical data capture to engage patients, enable compliance, and generate insight reports to inform clinicians when patients need guidance to stay on their healing journey.
