Staying Connected – RSS Coordinator Check-Ins

To better support our RSS programs, I'll be offering brief, recurring check-in sessions bi-weekly each month. These meetings are meant to keep communication open, address questions early, and ensure we stay aligned with accreditation expectations.

The goal is simple — consistent, proactive support rather than reactive problem-solving.

When & How We'll Meet

We will meet **every other Wednesday** via **Microsoft Teams**.

The time block will be **10:00 AM – 10:45 AM**, divided into **individual 15-minute time slots**.

This format allows us to focus specifically on your series while keeping the meetings efficient and manageable.

Focused Discussion & Program Support

These sessions are an opportunity to:

- Talk through any challenges and identify solutions early
- Review upcoming deadlines and planning priorities
- Discuss compliance questions and accreditation expectations
- Review disclosures and documentation updates
- Share best practices across RSS programs
